# Installing the Monero Authentication Browser Extension
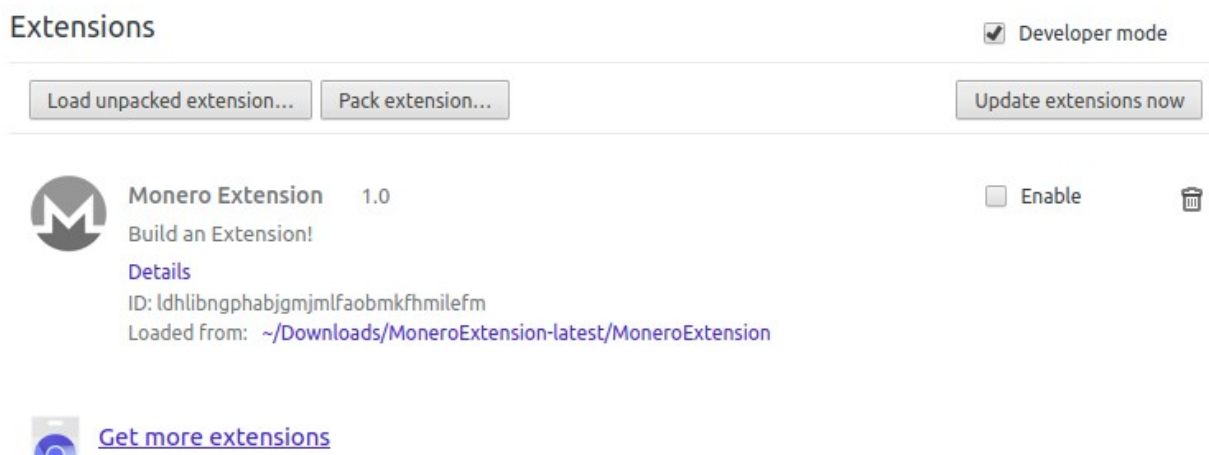

Chromium

Download the browser extension files and place them into a directory on your machine. All of the files should be in the directory and the directory should contain the *images* subdirectory

Open the Chromium/Chrome browser and select the *More tools -→Extensions* menu option as shown below:

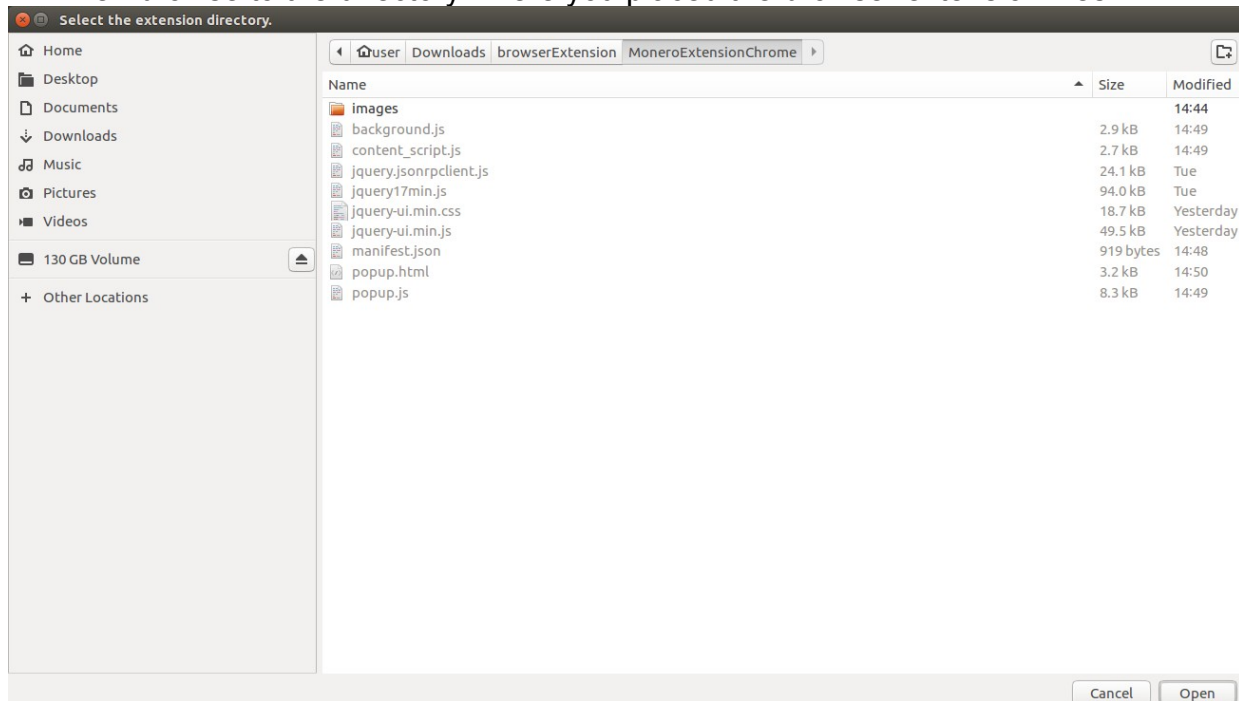

You should see a screen similar to the one below:

Click the *Load unpacked extension* button.

Then browse to the directory where you placed the browser extension files:

Select any one of the files, then click the *Open* button. You will then see a screen similar to:

You will see that the Monero Authentication extension has been added to Chromium/Chrome.
